Dogtroep has worked together with the Lions of Africa (music and Dance from Senegal), during thirteen performances of the location theatre piece Loket 025.

The performances took place at The Atrium, which is the townhall of the city of The Hague from 15 -28 januari 2007. More than six thousand people enjoyed the show.

Dogtroep enjoyed working with the Lions of Africa and was very happy with the result. We would like to recommend the group for other festivals. Their commitment and enthusiasm contributed to the quality of their performance. The audience really enjoyed their work and the way they integrated their skills into the whole.

Yours Sincerely,

Henk Schut
Artistic director
